Owl's Head, June 15, 1838. THE MATCHLESS SANATIVE, A remedy for the Consumption, invented by the immortal LOUIS OI FON GOŁLICKE, M D of Germany Europe,

satonishing the world with its might victories over many tearful diseases which have been pronounce o mountle? I physicians in every end, being the most viduable medicine, and the most un accountable in its operations of any ever prepared the Animal, Aliacril and Vegetable Kingdoms, thus sion 1838, received by SMITH & FENNO. of more value to manking than the united treasures. of our globe, and for which we have abundant cause to bless the beneficent hand of a kind Providence; a medicine which begins to be valued by physicians, who have heretotore opposed it who prices, at are daily withcoming its astonishing cures of many whom they had resigned to the grasp of the insatia ble grave, a precious and powerful medicine which has thoroughly filled the great vacuum in the Mate rin Medica and thereby proved itself to be the conqueror of physicians.

queror of physicians It I lose of the Sanature, for adults, one drop for children a half drop , and for infants a quarter

The public are particula ly referred to the follow ing tesumony, being a Certificate from three ment bers of the MEDICAL PROFESSION, in Germa ny in Europe –

We, the undersigned, practitioners of medicine ced by selfish motives. Though we shall refrain the Assignces of Dr. Goel cke's new the Assignces of D doctrine, we are happy to say that we deem his Senative too valuable not to be generally known, for what our eyes behold and our ears hear, we must believe

We hereby state, that when Dr Louis Olfon Goeheke first came before the German public, as the pretended discoverer of a new doctrine and a new medicine, we beld from in the highest contempt believing and openly pronouncing him to be a base impostor and the prince of quacks. But, on hearing so much said about the Sannive against it and for it, we were induced from motives of curioeity merely te call, as our goods are purchased of the importers of our most hopeless patients and we now doesn it our bounded duty (even at the expense of our self to make trial of its reputed circues Upon a number interest) publicly to acknowledge its mighty efficacy GANDWICH ISLAND PERIODI- in curing not only consumption, but other feaful maladies, which we have heretofore believed in furable. Our contempt for the discovers of this medicine was at once swallowed up in our atter aston. tshment at these unexpected results, and as an amend for our abuse of him, we do frankly confess to the world that we believe him a philauthropial, who does honor to the profession and to our country which give how both

The recent adoption of this medicine into some of our European Hospitals is a sofficient gifaranty that it performs all it promises. It needed not our testimons, for whetever it is used it is its any test HERMAN ETMULETE, M. D.

> - AROOSTOOK LANDS. LOCO-FOCQISM IFrom the Eastern Argus }

HUMBUG Exposed Great merit is claimed Kent in particula, he what are terined their important mensures touching the settlement of the Arnostook lands' measures which it was declared, were to make these lands "hiosom A great deal of bathos has been expended in landing the liberal inducements held out to actual settlers, and the smooth and as desired to better their condition, and to exchange penury for competence. All this, like federal "victories," appeared very well on paper

and all who had sufficient faith had but to turn their faces eastward to become rich in their own conceit. The federalists sied with each other in vivid descriptions of the unexampled andusements held out to settlers, under the dymerty of the second fluntoon. On the 30th of enquiries a little further, he would have found April the Land Agent published, far and near that not only six hundred, but three-times six a flaming advertisement giving

"Public notice that Township number 4, in the 5th range of Townships west from the east ling of the State has been lotted for settlers, and is now in the murici for sale and settlement under the processons of the law passed at the last session of the Legislature. The price will be from fifty to seventy-five cents per acre, accord ing to the quality and situation of the lots. The turn highly pleased with the land, and that large bed to run from that point where a line drawn lots average 100 agres each The soil in this township is good, being remarkably free from stones, and the land lying in moderate swells The location of this township is favorable for settlement, as the Aroostook road passes within one mile of the western he of the township

Irusting to these specious promises, we are told that during the month of May, about six handred men took up their line of march for the promised land, not presuming to doubt that they sliguld find it all that had been represented On arriving there, as we are informed by one who knows something of the matter by experi ence, the township particularly designated for settlement by the Land Agent, and declared by him to have been "folled out, was found to contain eighteen the and acres of bog where a man of ordinary weight would settle for life, without the ability to change his location in addition to this bog, (emphatically settling land) there were about *thirty* lots only lotted out a number quite too inconsiderable to ac commodate the six hundred men who had been so pressingly invited thither As a consequence, but about tharty of the six hundred could obtain what they had been informed was Maiting for their occupancy. Some few of the disappointed bought cleared lands this side of Kent's El Dorado -but by far the greater portion took the but k track, disgusted with the imserable deception practised upon them by the political mountebanks who are now accidentally in power. A more contemptible trick a more bare-faced imposition was never practi sed upon the credulity of the people

This result, however, ought not to be allow

ed to diminish the value or credit of Castern There is, in Maine, an abundance of as good land as the country can bosst and the only trouble in this case is, that Gov Kent and his friends, as a matter of political speculation THAN up the curtain too soon, in order to pass round the hat for votes they invited their gues's before the table was apread and as a reward for inducing five or six hundred men to give up their homes and travel to the Aroostook, and back, for nothing, they ask to be continued in power, and clothed with new ability to deceive any humbug the people. This great and favorite meanire of the federal party, as we have al ready observed, appeared very well on paper but when tested, furnished dimning proof of the meanness and dishonesty of our present State administration. The consequences of this shameful deception will, we fear, be of a very injurious character those who have been duped, will be over-wary for the future to much so, that when Maine again holds out any special inducements for emigration, they will be received with many grains of allowance, if not with actual distrust Instead of encoura ging emigration to our new lands, the course pursued by Gov Vent will drive to another quarter those who would otherwise have contrib And to swell our population and if he deacrees any thing on this score, it is not a reelection, but a defeat

We give the above article entire as published in the Argus | The twee of such slang the locoface furnish so with the better for the Whig can . They shell have our sid m giving circulation to it, and that cresulation is not small, eulation to it, and (but cresulation is not small, the speech of Duncan, which he did not deliver among the hardy-Receiving of this section of The desperate case of the Globe may be easily OOL BIRIS.

Be- editor of the Argus, we know the mun, we have lived a neighber to him, has become so used to ha " mg-sg the people, that he thinks of neibung but the street He assessed pro- No of neibers but in large. He assume to p ty, or like the birth place of the President? the process it was Kind-or hook'd touches printing of but toto a hurly he

will travel as far out of his way to find a humbug as John Randolph would "to kick a sheep.

In the about arpate we have a whole solumn of solitical hypocray ander the capfier of Bum of Chalents, slong the highlands which divide

thirty or forly hardy young men are highling their way through flies and musquitues, and levelling the forest. This story probably originated with some locofeco from Portland, who folday of August to nominate candidates for State lowed in the wake of a company of spirited young men from that place on an excursion down east one who knew as little about the quality of land or the making of a farw as the editor of the Argus does about religion It is not very fextraordinary pretension, than it would have the use of any thing but a tailors budkin or a painters brush, should discover an enormous bog in an half acre meadow.

Had the editor in this case taken Greens counsel of one of his more wary neighbors and a friend, before he discharged his piece, he might have given the Whigs of Penobscot a shot that would have redounded more to his credit, and saved himself the mortification of being "kicked" over in the discharge Ilad lie looked at the for the federal party in general, and Governor law of 1835, he would have found a duty inperative upon the I and Agent, which was right fully exercised in causing the advertisement of April 30th to be promulgated throughout the State Had he inquired at the Land Office he would have found that the same township was easy road to fortune, which Gov Kent had laid surveyed according to the law before cited, not out for the benefit of such of his fellow citizens under the present administration, but under the last and if he would but visit the eighteen thousand acre bog, he would find some of the finest soil in the State, and probably some ' down east boys that would lish him to a tell brake and flog him within an mich of his life for his slander upon the country Had he extended his hundred, have visited the Argostook country (which he ignorably confounds with No 4, and which his informant ignorantly supposed to be on the Arcostook aver) with a view of making permanent settlements as fast as the land can be surveyed, and that seven eights of them renumbers of them have already commenced fell ing trees and creeting mills

> Gov Kent probably has as little to do with number 4 in the 5th range as the man in the moon, and the editor of a public journal who will resort to such low, mean, paltry second hand misrepresentations upon a subject he knowe nothing about, and one too of wital interest to the State, the settlement of our public lands, " merely for political iffect, is worthy to be a chief bay. The commissions to the Governors of mourner in a political funeral of a professed du

> But this Green horn in the geography of the State, judging from the tenor of his remarks up on "Aroostook lands," eighteen thousand acre boundary of the province of Quebec at the date in no other light than as a direct attempt to check emigration to the East and retard the ect | Bay of Chileurs, to a point on the eastern bank tlement of the public domain by representing it as a worthless bog and the Land Agent as an imposter a more faithful public officer or a streams flowing into the sea. Where then, more devoted citizen to the interest of the State than whom cannot be found

Electors of the County of Penopscoi What say you to Locofocoism as promulgated through the Eastern Argus, where it ridigules the measures of the State administration, to effect the settle ment of the public lands, is a humbug, and the Aroostook lands as eighteen thousand acre bogs?

IFF A Convention of the Whige of Kenne bec and Somersel Congressional District was holden at Belgrade on the 18th and It was very numerously attended, every town in the district except three being represented " The date on the 21st November, 1763, limits and reable and distinguished gentleman, (Hon George, strains the province of Quebec thus "To the Evans,) who has for so many years so satisfac torily and so honorably represented that District, was with great unanimity re nominated. A resolution was adopted expressing a preference shall be bounded by a line drawn from Cape for HEARY CLAY for President,

Ar We have been requested by Mr Honn to river to its source, by a line drawn due north give notice that his Concert, advertised for this evening is unavoidably postponed (the unpleas ant state of the weather having detaired him at ! Hallowell) to IHLESDAY EVENING NEXT, the 26th inst when it will be given at the St John Church By reference to the advertisement in this day a paper, it will be seen that a rich treat to the conclusion of the provisional freaty of is in store for the lovers of sweet masic, and we trust the citizens of Brager well avail them selves of the opportunity which will then be it may be proper to observe, that the St. Croix presented them of listening to it. We can assure them they will be amply repaid

I he globe is sadly tormented with Mr Bond a peech. Benum a reply to-it was published by some out in some ten or twolve columns, with for the boundaries between the United States judged of from the fact, that it is obliged to rely for its defence, upon two such advocates as By num and Duncan [Berton Atlas]

Why was the money found in Benton a crevat at Chapal-Rill like the Van Buren par-

MR. BUCHANAN'S PEPORT. (Continued) The following language is employed, to wit:

Shounded on the south by a line from the Bay

bug niposed nay work of downinght bain- the rivers that empty the meters into the river booking , intended no doubt to deter the houest St I swience from those which fall into the laborer who has been thrown out of employment latitude on the eastern bank of the given on Nova South, which summences at the land Portland pagers will plears copy ] by the glorious humbugging of his clique from necticut. In both the proclamation, and the emigrating to the East where he might obtain a act of Parliament, the dividing highlands are described in the very same linguage. "The sure reward for his industry. This is in perfect highlands which divide the rivers that empty keeping with the crude notions of the great themselves into the river by Lowience, from the treaty. Along the highlands which divide the river by Lowience, from the treaty. Along the highlands which divide the ministry of the river that empty themselves into the river pendleton, Provinctown; Rocket, Snow, Wey. tinforted upon political economy. Take care those which fall into the sea. The termini of the government and let the people take care of the government and let the people take care those which fall into the sea. The only change of this language in the sea. The only change of this language in the sea. The only change of this language in the sea. This act makes the southern point of the river ted for "the sea." The only change of this language in the southern point of the line treaty is, that "the Atlantic ocean" is substituted to commence on the eastern lank of the river ted for "the sea." Both are evidently intended to connecticut, in latitude tortyfive, and terminist to convey the same meaning. The solicitude Boston, Abaco, Carver, Steinington; Condelia to convey the same the solicitude of the commissioners to preserve this highland. The arriman Boston' Aiden. should eccasionally get a liftle "humbugged if note at the Bay of Chalcurs Its extremities of the commissioners to preserve this highlind of the humbugged if note at the Bay of Chalcurs Its extremities of the commissioners to preserve this highlind of the highlind of the humbugged if note are two well known natural objects. This hay boundary throughout between the two nations lew, Harriman, Boston, Anden, do, Jane is manifest. Under the act of Parliment, the Farmworth, Beverly, Monadorek, Parks Prov. liament seems to have been prepared with great southern extremity of this line is described to idence, Clama, Carver Duxbury, Mary Ann, township No 4 in the 5th range, would be a deliberation It was intended to fix the b un be "a point in forty-five degrees of north late hine electioneering document in that town, where daries between vast provinces of the same ein itude, on the eastern bank of the river Connectituty or toric hards young near sea habiting pire, and no act of legislation demands greater out. In the tre ty it is "the northwestermost cire and attention. The Bay of Chalcuis on the head of Connecticut river. From thence, the north, in latitude forty eight, and a point on the treaty line runs " down along the middle of that Connecticut, in latitude forty five at the south river, to the farty fifth degree of north latitude were to be the two extremities, and the intermediate line was to pass along the highlands running between these two points, which divide | between the northwesterinost head of Connecti the rivers that empty themselves into the St | cut river and the forty fifth degree of north 1 t. Lawrence on the one side, from those falling titude, in order to have a continuous highland into the sea spon the other. After this act of boundary from the northwest angle of Nova Parliament, is it possible to conceive of a more Scotia, to the source of the northwestermost extraordinary pretension, than it would have head of the Connecticut. To accomplish this remarkable that a young man who never knew been in the Government of Quebec to have object, a part of what had been taken from New claimed jurisdiction, not only to these dividing highlands whence streams flow into the Si Lawrence, but a hundred miles south and east of them, embracing a region of country watered hine should consist of the highlands "which," by a large river, the St John, and its numerous in the language of the treaty and the act of tributaries flowing into the sen? Such a claim Parliament, 'divide those rivers that empty no where exceeding 33 degrees, descending from would have broken down the barriers between themselves into the river St Lawrence, from the timber lauds all the way. The Company will those provinces, erected with so much care by those which fall into the sea 'or "the Atlantic contract for the delivery of at least (2,000,000) two the act of Pirliament, and made rivers running ocean north into the St. Lawrence, mean the same thing as rivers running south into the ocean And yet the present attempt of the British Government to make Mars hitt the northwest angle York to the 10th The following extracts are of Nova Scotia rests upon no other or better principle, as will be shown hereafter

The commissions of the different Governors of Quebro, in discribing the budhdaries of their jurisdiction, followed the language of the proclamation of 1763, until after the passage of the act of l'arliament in 1774 The first commission which subsequently issued was to Guy Carlton, Esq , in the same year, and it adopts the language of that act the southern limits of his jurisdiction are described in its language to be a line from the Bay of Chaleurs, along the highlands which divide the rivers that empty themselves into the river St Lawrence from those which fall into the sea to a point in forty-five degrees of northeld latitude, on the eastern bank of the river Connecticut. Thus this pros-ince had for its southern boundary highlands dividing streams running in opposite directions between a bay, and a fixed point on a river Was ever boundary better defined?

It would be a waste of time to recite the numerous commissions which have issued to the Governors of Quebec, of Nova Scotia, and, after this province was divided in 1734, of New Brunswick, all speaking the same language The western limit of Nova Scotia, and afterwards of New Brunswick, is uniformly descridue north from the source of the river St. Croix would intersect the southern boundary of Quebec, and from thence "to the porthward by the said boundary as far as the western extremity of the Bay des Chaleurs" These commissions place the natural construction upon one expression, which in the act of Parliament, in first view might appear vague. In it the Bay of Chaleurs is mentioned generally, without a special reference to any particular part of it, though from the whole context the evident meaning was, the western extremity of that Nova Scotia, and afterwards New Brunswick, render this ocatain, by specifying "the western

extremity of the Bay des Chaleurs -Enough has already been shown to fx with precision what was the acknowledged southern bogs, had another design. It can be regerded of the treaty in 1703, and whit it has remained been a line from the western extremity of the of the Connecticut, in latitude forty-five and running along the highlands dividing the tribe taries of the St Lawrence, from the source of was the northwest angle of Nova Scotta known

to be at the date of the treaty? Without going back to the creation of this province, in 1621, by James the First , which the committee deem unnecessary, though it would add strength to the argument, they will content themselves with a reference to the first commissidn which was issued by the Governor of Nova Scotin, after the date of the proclamation of 1763 Before the proclamation, this province, as well as New England, had extended north to the St Lawrence After its date, it was necessary" to make the commission of the Governors corres sond with the extension of the province of Que bec south of that river Accordingly, the royal commission to Montague Wilmot, Esq , bearing northward our said proxince shall be bounded by the southern boundary of our province of Quebec as far as the western extremity of the Bay des Chalcurs,' and again, to the westward "it Sable, across the entrance of the Bay of Fundy. to the mouth of the river St Croix, by the said from thence to the southern boundary of our colony of Quebec, to the northward by the said boundary as far as the western extremity of the Bay des Chaleurs' in every commission which has issued since to all Governors of Nova Scotia, and afterwards of New Brunswick, the same identical language has been used. On the 20th day of July, 1781, but four months previous peace with Great Britain, the commission granted to Gov. Parr describes the limits of Nova Scotta iti precisely the same manner And here has since been ascertained by a joint commis-

has been erected at its source Ware not, then, the commissioners who fram ed the treaty fully justified in the conviction the "organ some time since It has lately that when they establish the point of beginning and Great Britain, at "the noathwest angle of Nova Scotia, they were fixing it at a point long known and well established? To render assurance doubly certain, however, they de scribe where it is, in the very language which had been uniformly used by the British Gavern ment in proclamations, is acts of Parliament. and in namerous commitmions to the Governors of Quetec and Nova Scotts. "The northwest angle of Nova Scotia," says the treaty, " is that angle which is formed by a line drawn due

sion of the two Governments, and a monument

rightands? The treaty answers, "the high-labds which divied those rivers that empty. In Psys-dumbers of the Chandler, themselves into the river St. Lawrences (19th and 10 months. The part of the pocusioned and the Atlantic organ. The land 10 months. The part of the pocusioned and the Atlantic organ. The land 10 months. The part of the part north from the source of St. Croix river to the these which fall into the Atlantic onean 'S The land, 10 months. He delth. I occasioned by northwest angle of Pava Scotis, then, is to be this clothes taking five his face, hands arm and found in these highlands, at the point where source of the St Croix, meets the southern boundary of the province of Quebec

Thus the British Government surrendered that small portion of the Provinces of Quebec England, when the province of Quebec was established in 1763, has been restored by the treaty. The great purpose was, that the entire

### SACRED MUSIC. To THE CITIZENS OF BANGOR. THE Government of the Bangor Sacred Music

Society," does it expedient to acquaint you that said Society numbering about eighty members. has recently been organized under a chaner granted them by the Legislatore of last winter

It is their great object to cultivate a correct taste and chaste siyle in singing, and believing that their society embraces the very best musical talent among you they confidently hope to give tone and uniformity to the practice of Sacred Music in this city, and make their association a source of social and moral improvement and elevation. And with fulk, accompanied by the Secretary of the Navy | these objects in view, they now present their plan of operations, and appeal to you for that countenance nd support which characterizes a generous and discerning community, and without which their efforts will be fruitless and unavailing. The Society will meet for rehearsal, once a week during the coming sutumn and winter, giving a public relies? salonce in four weeks, commeacing on the 10th of August ; and will give public Concerts as often as to Louisa Court house, where the state carriage | may be found expedient | Honorary members and holders of season tickets being admitted both to the public Rehenrals and Concerts, single tickets for admission to public rehearsals will now be soldthey being given expressis for the benefit of said honorary members and holders of season tickets The incidental expenses of the Society are necessarily too large to be borne by assess - the on 113 members, and it is from administration fees of benten members and the sale of season tickets on which they sely, principally, to deliay their expenses. They would therefore respectfully ask your aid for this purpose Terms Admission fee for honorary members, three dollars annually. Seas on lickets single \$2; to admitting gentleman and lady \$3; do admitting the members of one family, not exceeding five in number \$5

Lives in the world, to kill, to kill

THIS system does indeed hive attli- and is practised by the very men who lough at Doctor angrado as a visionary fool. The immaculate Faculty !! Let this truth be impressed upon every mind that all pain and weakness proceed from the presence of morbid stagnant and corrupt hundurs is the Body by which the circulation of the blood is impeded and that the only sensit le method is to remove them from the stomach de bowels, then take

Brandreth's Pills concocted forth I rom the pore products of the earth , They own no after sad alloy,

They often save, but ne'er destroy ! BLEEDING ALWAYS IMPROPER.

"For the life of the flesh is in the blood," Levit icus, chapter xxu v 11 When the properties of BRANDRETH'S VEGETABLE UNIVERSAL PITTS shall have been appreciated, bleeding will no long or be thought of as a remedy for diseases for in vident inflammations eight or ten of them will take, in the course of two critice hours, more of The new elegant and last remembered that the Pols remove ONLy those sailing steamer HUNTRESS parts from the Hood which were the cause of including meaning that they have done and the state of the first on the Hood which were the cause of including meaning that they have to determine the state of the first on the Hood which were the cause of including meaning that they have to determine the state of the first on the flow great the prostration of all stimach. Un the other hand, when the flow is the prostration of all is the prostration of the first prostration of the force of the prostration of the prostratio and Thursday at 3 o clock, the corporeal pures after a copious bleeding that at 6 o'clock P M Leaves Boston Tues of the contract what again, and strength is for days and Fridays at 7 P M for Gardiner. The period of this predictine, the body is indeed to a er a dose of this inedicine, the body is indeed lightened of a load. Nothing is equal to ridding the vittated humors with a vege able medicine of this kind which 64 years have proved never to do injury by always good. Is the pulse too high? the safe Low, Pressure principle To avoid run | A die a or these Polls will bring in down | Is in too along on Sundays the Hunivess will leave Boston | low 1 the same means will increase it to a proper low I the same means will increase it to a proper Is it tremulous, slowing nervous excitement the fills to soothing the system will allay it.

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Di B who have for many years been in the habit of being that as often as four times in a year ; and whose constitutions in consequence, were becoming weaker and weaker but who, since they have made | use of the Dills, have never to the drop of their precious blood | Wilen any of their old symptoms appeared instead of running to a Doctor and hav ing a vein opened, they have swallowed six or eight Pills which soon removed the viriated humors that were mipeding the blood in its circulation. Those Pills, are increasing every day the powers both of body and maid which by the practice of bleeding, were both becoming dreadfully impaired.

The following cases of cure, by the me of Brand reth's Pills, alone, are submitted with respect, to

the unprejudiced portion of the Boston public
ASTHMA CURLD The following extraordinary case of Asihma, which is authenticated by seventeen respectable and well known inhabitants of Green ich Ct, deserves by all persons, a care ful perusal. The most prejudiced must own that evidence is on the side of these Pills, which, by the cures they are daily making show there is no neces

Certificate of cure of CHOI ICS, FITS, &c &c From a BOSTONIAN whose address is at the foot [TRUP COPY]

To Dr. Beng. Brandreth
My dear Ser. I write a few lines to inform you that I have been making use of your Vegetable Universal Pills I have been afflicted with a complaint supposed to be caused by PAIN I I was platine supposed to be caused by PAIN I subject to a great coldness through my whole sys-tom attended with frequent pain and severe chol-ics, for the year, I have also been subject to fits which would seize me in the night, and when I have come to myself, I have been as weak as a child I am ready to state the facts more particularly, and how the medicine acted upon me, at my res dence, No 17 Sudbury street, to any one who wishes to Furniture, for sale at auction at the office of inquire.

ATTWOOD & SON.

I feel the medicine has been of very great service and that the diseases under which I labored have been by it EN FIRELY REMOVED, for which I shall ever feel grateful to Providence and to you Believe me to remain,

Very respectfully JOHN LUMMUS

THE most safe effectual and economic abromeds for diseases of the Humay I positions that has ever been discovered

These Pills recomposed entirely of materials extracted from Medium Plants and are warranted not to contain one parincle of increury or any insural substance. Dr Kingley them verter of this valuable medicine from his kichlicge of the human system derived from a long and extensive practice, the screw factory is east, and an extensive country has arrived to the conclusion, that the great and the impure humors from the Loty by the stomach prinary cause of most diseases is a deraigement in the functions of the liver, of in other words on fu So well is this understood, that it is common for

persons to say when they feel unwell that they are t bilious, meaning that they lave too much lule in the stomach. On the other hand, when the flow cibils is diminished, the process of digestion is any offectly Forfur ed the patient lecomes weak and emaciated, hechase nourishment contained in the food taken into the stoniach is not properly extracted, and the food is ejected in a crude state. Dr Kingley is confident that the famous Hygean Theory so called that impufity of the blood is the cause of all diseases. is a great absurdity. Every one who reflects upon the subject a moment, will perceive that impurity of the blood is a secondary, not a primary complicat the effect, and not the cause of the disease the functions of the fiver are derapped, and the flow and title o creased it is often taken up by it e absorb ent vessels and carried into the circulation, and be comes mingled with the blood as in Jamic ice when the patient shows it in his countenance. Now this impurity of the blood is caused by an increased flow

ing with different vegetable medicines, for diseases | which a highly favorable route is presented for the of the liver and now offers his Universal Family construction of a Rail Road is the Livera Tables. south o people-susply by the use of these flux abordies and the properties of the properties of the use of these flux abordies and the properties of the use of the u in offering them to the public he is actuated incre by benevolent than pecuniary motives, as the price of the medic ne will show

Dr kingley flatters himself that his long experi menting with vegetable medicines has chabled him to discover the true and only substitute answering all the purpose of mercurials without any of their attendent evils. One great quality of his family Pills is, that they have the alterative principle combined with their cathortic or operative quality, so that they not only cleanse the stomach and bowels by purging, but they regulate the liver change the morbid secretions, strengthen the digestive organs purify the blood, invigorate the circulation, and give rone and energy to the nervous system

They are mild and pleasant in their operation, and almost immediate conviction of their utility from the first dose. They can be taken with safety by persons of any age and the feeble the infirm the neryous, it e delicate, are strong thened by their operation because they clear the system of had homos. quiet nervous irritabilities and restlessness from chatever source, and invariably produce sound

The Family Pills are an invariable remedy for jaundice, sick and nervous headache, dyspepsing (the thin lies of the standard benefit in the city orlinus complaints levers of all kinds and if taken at the commencement will invariably check their progress, and save the patient from a protracted and dangerous sickness. They are invaluable in nervous and hypochondriacal affections loss of appetite and all complaints to which temales alone are subject. They operate as a mild and speedy purge and are a safe and certain remedy for worms in

I might publish a small tolume of certificates but consider it unnecessary, as the medicine will recommend itself to all who will make trial of it JOHN KINGLEY,

These Pills are put up in neat hoxes of two sizes, the small size contains 25 Pills and the retail pince is 25 cents, the large size contains 60 Pills, the price is

A VARUABLE LEAL ESTATE

I he whole of the PHIPSBURGH ESTATE, suc nted in Centre, Clearheld, and Chaiteria, Counties, in the State of Pennsylvania, with all the improvenients thereon, is new offered for sale THIS Estate comprises about SEVENTY THOUSAND ACRES of Land VERY BEAV-

ILY TIMBERED, and in the HEARA of the BITUMINous coal right, upon which are already establish ed a I ORGL for the manufacture of bar fron, with all the necessary appendance. An efficient and well constructed SAW MILL a SCREW PACTO-RY, with improved michinery, at which wood screws of all sizes are manufactured. A ROLLING MII L. (or the rolling of blocms into round rods for wire drawing, with AIR FURNACE for heating the blooms." An ANNEALING HOUSL a Letter ING WITH a FURNACE and MACHINE for heading rail road screws A PALLERN HOUSL con taining numerous patterns for casting machinery A CUPOLA FURNACL, where the machinery of Business carried in A Building containing a Till HAMMER and SHEARS for cutting from A MANAGIRS HOUSE & OFFICE and BOARD-ING HOUSE for workmen A valuable GRIST MILL, worked by steam power

Also the PROPRIETOR'S HOUSE heautiful is estuated ecveniv-era feet in from with spacious piezzes front and rear, and nossessing every conve nuchee calculated for a gentleman a residence LARGE AND SUBSTANTIALLY BUILT BRICK HO-ILL, in the town, with all the require out holding. A WELL BUILT STONE HOUSE, forty wo by twenty-four feet with the land adjoining A LARGESTORE HOUSE calculated for an extension country business. Five COTTAGES in village with gardens attached HOUSE with a spacious and well constructed Barn. When Granary shift our buildings, and one hundred and fitty acres of highly cultivated meadow land adjoining. The whole estate is abundantly supplied with springs of excellent water, and streams, with water mwer sufficient for saw mills, grist mills, forges turnaces Ac. It is situated on the Moshanon and Clearheid Creeks about ten miles from the river Susquehanna on the north to which the Moshannon of the file and to remidy it you must correct the and Clearfield Creeks afford navigable outlets in secretion of the hiver and restorent to a healthy state. Dr Kingle) has spenemuch-in e in experiment the Pennsylvania Cante on the southeast to construction of a Rad Road to the JUNIATA DIVIS-Pills as the Best, most convenient and cheapest | 10x1fthe Pent sylvenia Canal through a portion the finest quality, where a number of forges and furnaces have been long established but which are Inboring under difficulties from the WART OF THIS COAL A charler has been obtained for the construction of the rail road THE LUCATION OF WHICH is completely, and the estimates furnished, preparatory to a commencement of the work distance from the COAL MINES to the CANAL IS only twenty eight miles.

The MAGNIFICENT TIMBLE upon this estate consists of all the varieties usually found in Pennsylvanta but the wHITP PINE which is MORE PAR-TICULARLY ABUNDANT, is of the largest description lit for MASTS SPARS PANNEL BOARDS &c. and of an except Lent QUALITY. The BITUMINOUS COAL in found in every hill, in veins of various thickness viz four feet two inches six feet and nine feet, and there are two three or four veins in a hill according to its elevation. The quality varies, in different situations FROM THE HIGHLY BITT WINGLE OFF COAL, CLOSELY RESEMBLING the NEWLAS-THE COAL OF INGLAND to a much harder and heavier Coal containing less human Line stone FIRE CLAY and IRON STONE have been discovered accompanying some of the measures, and will doubiless be found to be general, uppn Croper rise amination A HIGHLY FAVORABLE CHARTER has been granted by the Legislature of Pennsylvan a, containing MINING MINUFATURING and TRANS-PORTING PRIVILEGES for a period of SIXTY YEARS, authorizing a company to held this estate in a cor porate capacity, and to convey to market its vast

Pamily circumstances however, having occurred to prevent the proprietor from individually accomplishing this important enterprise lie would be wilhing to sell ON LIBERAL TERMS the whole proper-ty to a respect this company, who would carry out the provisious of Charter to whom of course he would transfer all its privileges, or he would sell the estate in tracis, to suit the convenience of pur-

chaseis The title to this Estate is INDISPUTABLE and the SATEBRITY of the CTIMATE is proverhial Taking into consideration therefore the immense quantity of the HEAVY and VALUABLE TIMBER upon this estate the presence of thos one, the infrihaust-(BI) supplies of BITUMINOUS COAL SO essential in the GENERATION OF STEAM the PRODUCTION of a first-rate Carriage painter flat he is now ready to GAS and for domestic purposes and the aris in gen- execute ab orders in the line of House. Ship Sign eral HAADVANTAGEOUS POSITION with regard to tecommunication with the SEA BOARD its IMME DIATE PROTIMITY to a region ABOUNDIAG in the RICHEST IRON ORE which the wast offurl is already productive of serious inconvenience, considering also the highly favorable location of the reil road intersecting the Penusylvania capal, and thus affording the choice of both the Eastern and Western markets and taking into view the many Houses Building. MANUFACTURING Fa FABLISHMENTS CLEARED and CULTIVATED LAND, thus enabling the enterprising company to commence their operations without incorring the HEAVE EXPENDITURE of money, and the DELAY insident to new establishments it is confidently be lieved that a rare opportunity is now presented for lie SAFF and PROFITABLE investment of capital For further particulars application may be made either personally or by letter post PAID, to Samuel Corp Fsq New York John C Montgomery Fsq
